90% adoption of AI charting
2-4 UC & PC fellows each quarter

Business

80+ national locations
2.5x retention for patients with the app
100% locations offer Workplace Health Services

What makes us different

Our approach to care

We address a full spectrum of health needs – from acute issues to primary care to chronic conditions. We meet people where they are, in-person and online, delivering high-quality healthcare in the way that's most convenient for them.

Our team

We are a highly integrated, multidisciplinary team. This gives us a uniquely collaborative and flexible approach to care, that allows us to nimbly react to the trends and opportunities before us.

Our technology

CarbyOS is our full-stack technology platform, built to make healthcare easier and more efficient for providers, patients, and business owners alike. Over 3,000 people use it every day, nationwide.

For patients

We aim to fill the gaps in healthcare by caring for acute needs, routine check-ups, and the things in-between:

- Primary Care
- Urgent Care
- Pediatric Urgent Care
- Mental Health
- Workplace Health
- X-ray and labs

For business

In pursuit of our mission, we collaborate with like-minded clients and partners to expand healthcare access through:

- Practice Management Platform (CarbyOS)
- Clinical Research
- Workplace Health
- Direct Primary Care & membership options
